

## **There was a robot girl at Jean Monnet !**

Hi ! I am a reporter. I know that you were at Jean Monnet middle school, so can you tell us about the robot girl ?

Yes of course !

Ok, let's go !

When did you last gossip ?

It was 3 years ago, I was in year nine and there was a really weird girl.

What did you gossip about ?

This girl was very strange, she had a robotic voice, a robotic walk. She always wore white and silver clothes like a replicant. She was very quiet and always had good marks.

What did you say ?

I was very mean and always laughed at her. I always judged her and told her that she was stupid, ugly, useless... I regret what I did because I think she was very sad... Even her friends laughed.

Did you start the rumour ? Who started it ?

I started the rumour with my friends but after a few weeks, it stopped but I continued.

Why did you gossip about this girl ?

Because I thought it was fun as all bullies do. And the bystanders found it funny.

How did the rumour spread ?

The rumour started when my friends and I gave her a nickname " the android" and this is how it started.

Thank you for answering my questions!

You're welcome ! Good bye.
